MEETING OF A GROUP OF INTERESTED CITIZENS  
CONSISTING OF INCORPORATORS OF DELTA SENIOR UNIVERSITY  
AND TRUSTEES OF DELTA COLLEGE

July 2, 1963

A G E N D A .

- 1.) Selection of an initial Board of nine members

Suggested Procedure for the Selection of the Initial Nine Members  
of Delta Senior University

The charter provides that at least three members shall be chosen from the Delta Board of Trustees, one from each county. It is proposed, therefore, that each county group meet together to select three members of the Board of Directors as follows:

- 1.) One director to be an elected member of the Delta Board.
- 2.) One director who is not presently on the Delta Board.
- 3.) One member who may be either an elected member, an appointed member, or a non-member of the Delta Board.

The initial Board, therefore, will be equally representative of the three counties. These nine will select the additional members of the Delta Senior University Board of Directors. However, it should be clear that the initial Board is in the future not committed to follow any pattern of county distribution other than that specified in the charter, and that additional members to the Board may be residents of any of the counties, or of the State, or of the United States.
