## THE INSIGNIA OF SAGINAW VALLEY COLLEGE

The seal is shaped as a triangle which represents the geographical area formed by Bay City, Midland, and Saginaw, popularly known as "The Golden Triangle." Here, three separate urban communities are merging into a metropolitan community with a population of more than 400,000. The college has been placed midway between the three cities to serve the need for a baccalaureate institution.

Within the seal are symbols of Egyptian origin. The figure at the top stands for truth, and is associated with the teachings of Ikhnaton, who has been called "the first individual in history" and "the first monotheist." His search for truth led him to enunciate elements of the scientific method and a belief in the brotherhood of man.

The symbol at the lower left represents light — perhaps the inner light. It recognizes that "our knowledge is a torch of smokey pine that lights the pathway but one step ahead." We may wish, in the words of Santayana, to:

*"Bid, then, the tender light of faith to shine  
By which alone the mortal heart is led  
Unto the thinking of the thought divine."*

The symbol in the lower right is a staff which stands for strength. This may be regarded as an appeal for the endurance necessary to search and find the truth, and the strength to speak and live it.

The college has but a single color — cardinal — chosen, not because of its ornithological or its ecclesiastical significance, but simply because it is a beautiful color.
