

THE INTERIOR

Produced by the
Department of Community Affairs

December 18, 1973

The Board of Control met last night and left quite a few Christmas presents for everyone.

FACULTY CONTRACT---The contract with the SVC Faculty Association was ratified by the Board. The contract had been ratified earlier in the day by the Association. It calls, among other things, for a salary increase for faculty members. The total salary package amounts to about \$41,000.

SUMMER THEATRE---The contract for rebuilding and winterizing the Summer Theatre was approved. Wobig Construction Company of Saginaw is the low bidder at \$256,000. Work will start soon, and the building will be ready in 185 days, in time for next September's opening. The new theatre--yet to be officially named--will have an attractive lobby; a scene shop and dance studio will be added to the present stage area. This project is financed by Forward '71 money and a \$100,000 gift from the Kresge Foundation.

STUDENT CENTER---The administration was authorized to hire the firm of Alden B. Dow & Associates to draw schematics for a \$425,000 addition to Doan Center. This money, too, will come from Forward '71 funds. Once the plans and cost estimates are in, the Board will decide if the project should proceed.

FOOTBALL---The Board passed a resolution approving the entry of SVC into football competition at the earliest feasible time. Also at the meeting James Barcia, Student Government president, said the Student Senate at its last meeting had unanimously endorsed an expanded athletic program at SVC.

MERRY CHRISTMAS---That's what we're wishing everyone at SVC.
