PIONEER HALL GROUNDBREAKING SATURDAY

The big boom, marking the beginning of construction for Pioneer Hall of Engineering and Technology, will be triggered by laser this Saturday at noon on the construction site southeast of Wickes Hall. All members of the college community and general public are welcome to attend the ceremonies for our new 45,000 square foot classroom and laboratory facility. The helium neon laser gun being used is coming from Saginaw Steering Gear and when fired will trigger a photo cell, which will set off a buried mortar to loosen the ground.

Plan to come for the 12 noon band concert, 12:15 ceremony and 1:30 P.M. homecoming football game against Wayne State University.

An admission charge of \$2.50 including the meal is payable at the door. The play is a brand new bicentennial comedy production and results from extensive research which turned up a wealth of actual historical material but reflects the rich and delightful tradition of American humor, often in the exact words of familiar historical figures. The Alpha Omega players will add unique songs, music dramatized and transitions between scenes. After a humorous glance at where we've been and how we got here, the show closes with an excerpt from Dr. Martin Luther King's address, "I Have a Dream," as a positive look at what the future could be.
