DR. DRIVER TO BECOME FACILITIES DEVELOPMENT COORDINATOR

President Jack M. Ryder has accepted the resignation of Dr. Russell B. Driver as Vice President for Business Affairs, a position he has held since 1966. Dr. Driver has been named to the newly-created post of Facilities Development Coordinator. A search will begin to find a successor for Dr. Driver, whose new appointment will become effective with his replacement.

In his new post, Dr. Driver will report to Dr. Emerson D. Gilbert, who has overall responsibilities for facility development on campus. His duties will include assisting faculty and staff committees working on the educational and design specifications for new facilities. He will coordinate the writing of equipment specifications and the bidding and ordering of equipment for new and remodeled College buildings. He will also serve other supportive roles relative to campus and capital development projects as assigned. Until administrative requirements in connection with these assignments demand his full-time efforts, he will also teach courses in accounting.

Dr. Driver is a member of the American Institute of Certified Public Accountants, having been licensed in Tennessee and Virginia, and he has previously taught courses in the field. He was a teaching assistant and lecturer at the University of Michigan in accounting. He has also been a visiting lecturer in accounting at King College and at Sullins College. While on active duty in the U. S. Naval Reserve, he served a tour of duty as an instructor in the Navy Supply Corps School at the Harvard Graduate School of Business Administration. He is a member of Phi Beta Kappa, Phi Kappa Phi and numerous other organizations.

President Ryder expressed his appreciation to Dr. Driver for his many contributions to Saginaw Valley State College over the years while serving in his role as Vice President. Dr. Ryder indicated that the new responsibilities Dr. Driver will be undertaking are extremely important to the institution as Pioneer Hall is completed and construction begins on Instructional Facility II, as well as during the planning phase for the proposed new fine arts center, library, physical education facilities and residential housing. The President stated that he looks forward to continued contributions by Dr. Driver through his new role.

The search for Dr. Driver's successor will begin immediately, and it is anticipated that the position will be filled by July 1 or sooner.
