

the INTERIOR

MAY 2, 1978

COPY DEADLINE MOVED UP

Effective this Friday, May 5, the deadline to submit copy for publication in the "Interior" will be moved up to 4:30 P.M. of the Friday preceding publication. This change has been made necessary because of the recent relocation of the campus print shop and mailroom, so that a sufficient amount of time will be available to print and distribute copies around campus by Tuesday noon. As in the past, please phone Ext. 207 or 208 whenever you have news for the campus community. Or simply jot down the basic information (who, where, when, what, why and how) and drop this off or send it through the inner campus mail to Information Services. We appreciate having you include your extension number and/or home telephone number, so we can contact you if additional information is needed.

To help us do a better job of promoting SVSC off campus, keep us in mind when you publish an article, are involved in scholarly activities or have things happening on campus that would be of interest to people off campus. When you help us promote SVSC in a positive way, you are also promoting increased community awareness of the extensive activities with which you're involved. And that not only helps your P.P.C. file but encourages both private and public investment in the College and its endeavors.

SPRING SESSION REGISTRATION IS NEXT MONDAY

Spring session registration for bachelor's and master's level courses at SVSC is

slated for next Monday, May 8, from 3:00 to 6:00 P.M. in Wickes Hall. Students who have already been admitted to SVSC will be able to sign up for classes and make registration payments at the Registrar's Office. Master Charge and BankAmericard (Visa) credit cards will also be accepted.

Course changes can be made for students previously registered during the drop/add period Tuesday, May 9, through Friday, May 12. Late registration will also be possible; however, a \$10.00 late fee will be charged after May 8. Drop/add hours will be 5:30 to 7:00 P.M. Tuesday, May 9; 9:30 A.M. to 4:00 P.M. and 5:30 to 7:00 P.M. on Wednesday, May 10, and Thursday, May 11; plus 9:30 A.M. to 4:00 P.M. on Friday, May 12. Late registrants for spring session must pay for their courses by 4:00 P.M. Monday, May 15.

Students who have not yet been admitted as either a guest or regular student should come to the Admissions Office in Wickes Annex, located directly north of Wickes Hall, before planning to register. Official transcripts are necessary for any previous college course work which prospective students plan to transfer to SVSC. A high school transcript is necessary if fewer than 30 college credits have been earned. There is no admission charge at SVSC.

A printed list of available courses for spring and summer sessions is available from either the Admissions or Registrar's Office. In addition, a number of one-week and two-week short-term classes have been added for spring session.

WINNERS ADD UP AT SVSC MATH OLYMPICS

Students from Saginaw Eisenhower and Grand Blanc High Schools, tied as top seniors in the seventh annual SVSC Math Olympics, held April 7 on campus. Mike

Schuette of Eisenhower High School tied with Jeff Raphelson from Grand Blanc High School. Walter Karas, Flint Carman High School, was top sophomore with a raw score equal to the winning seniors.

Joanne Schwark and Julie Vogel, both of Midland Dow High School, tied for first place in the junior class category. Top freshman was Tom Richardson of Saginaw Douglas MacArthur High School. Each of the top students in all four class categories will receive a hand calculator.

Senior students with high scores who received tuition scholarships to SVSC include Teresa McArthur of Grand Blanc High School, Lee Sanderson of Saginaw Arthur Hill High School, and Norm Hecht from MacArthur.

Other seniors with high scores were Michael Braun of Arthur Hill, Kevin Twining of Bullock Creek High School, Jason Schuette from Dow, Tom Haubenstricker, Linda Mossner and Eric Werner from Frankenmuth High School, Richard Elieff of Grand Blanc, Vicki Salonen of MacArthur, Jacques Schmitt from Midland High School, and Joe Bhieh of Bridgeport-Spaulding High School.

Junior class members logging high scores included Dave Bruce of Carman, Mary Gentry, John Nussbaum, and Jeff Smith from Dow High, Mark Schroader from Eisenhower, Chris Gugel from Frankenmuth, Greg Armstrong, Jim Decon, Greg Helmer, and Ramon Raneses of Grand Blanc, Mark Ebell and Jim Leibinger of MacArthur, and Doug Coffield from Swartz Creek High School.

High-scoring sophomores included Kent Mays of Flint Ainsworth High School, Jeff Friedman of Carman, Julie Boeker and Ken Hollingshead of Dow High, and Bart Epker and Stephanie Satchfield of Grand Blanc High.

More than 400 students competed in this year's seventh annual Math Olympics, sponsored by the SVSC Mathematics Department.

SVSC STUDENTS WIN \$700

Five students from SVSC recently participated in a "Students in Free Enterprise" competition sponsored by Michigan Division, Dow Chemical U.S.A. in conjunction with National Leadership Methods from Austin, Texas.

The SVSC group joined students from 11 other Michigan colleges and universities in the program and came away with \$700 as second place in the competition. Winning first place and \$2,000 this year was Monroe Community College, while third place and a \$300 prize went to Hillsdale College. Last year, the contest was won by Delta College.

Those participating from SVSC were: Duane Jones, Melinda Klopfenstein, Jack Oeming, Janeen Sullivan, and Jeani Swanson, all of Saginaw, under the direction of Dr. Shiv K. Arora, Associate Professor of Marketing. This was the first year that SVSC business students had taken part in the annual contest.

Other schools participating were: Alpena Community College, Central Michigan University, Delta College, Hope College, Lake Superior State College, Lansing Community College, Northwood Institute, Spring Arbor College, and Western Michigan University.

WOMEN'S CLUB ELECTS 1978-79 OFFICERS

New president of the SVSC Women's Club for 1978-79 will be Diane Thaler, while Barb Waters was elected vice president during the annual April 22 election by the group. Treasurer will be Vonnie Pelzer, while Barb Mitchell will be recording secretary and Nancy Mackie will serve as corresponding secretary.

The women's group also voted to contribute money for two \$250 merit scholarships for upper class persons at SVSC. Another gift of \$75 will be used to provide crowd control ropes in the Theatre lobby.

"PLATO" COMPUTER DEMONSTRATION COMING

Two operating terminals of the "Plato" education assistance computer system will be demonstrated on campus May 18 & 19 in Wickes and Pioneer Halls.

Representatives from Control Data Education Company will be present from noon Thursday, May 18, to noon Friday, May 19 to demonstrate computer-assisted instruction techniques possible with the units.

Arrangements for the demonstration have been made by Dr. Richard A. Mock, Professor of Environmental Studies in the Division of Engineering and Technology. According to him, the "Plato" system can augment rather than hinder creativity in teaching while also helping the instructor to do his or her "own thing" more easily. Mock feels that any faculty members, regardless of academic discipline, will find the demonstration worthwhile. He stated that facilities of this type can help significantly with many instructional problems and are also excellent learning aids for students. Mock has brochures available which describe some of the capabilities offered by the "Plato" system.

SPECIAL ORIENTATION SET FOR FRESHMAN FOOTBALL PLAYERS

Twenty-two freshmen recruited to play football next fall at SVSC will meet with Coach Frank "Muddy" Waters, President Jack M. Ryder and four other college officials this Saturday, May 6, for a special orientation program. The recruits and their parents will meet at Cardinal Gymnasium at 10:00 A.M. for coffee and then tour the campus. Lunch will follow, vital information will then be presented on how to ease the process of getting squared away in college, and highlights of last fall's football games will be shown. The day will conclude with a hospitality period at the Waters' home.

Waters established the program to acquaint the young men and their parents with the college and prevent an attack of home-

sickness next fall. Each year some freshmen quit the team and college because of homesickness, he said. It is a malady prevalent on many squads which begin practice before school begins, when there is not a great deal of campus entertainment except football.

SANDBAGGERS TEEING OFF FRIDAYS AT 3

The Saginaw Valley Sandbaggers golf league resumes this Friday, with tee-off from 3-4 P.M. at Valley View Farms golf course. Anyone interested in participating can still join the league, but this will be the final week to do so. If you plan to play, please contact Dr. Dwayne Canon, Ext. 367 or Marianne Sherven at Ext. 335 by Friday and be at the golf course Friday at 3:00 P.M.

CAMPUS NOTES

-- Mary Haggerty, 7821 Stafford Drive, Saginaw, won the Wall Street Journal Student Achievement Award in SVSC's Accounting Department by having the highest grade point average for a graduating senior in accounting. The award consists of a specially-designed silver medal and a year's subscription to the Wall Street Journal. She received the award at the graduating senior banquet on April 22. Among her college honors, she was the recipient of a law and finance scholarship.

-- Dr. James Levenson, Assistant Professor of Biology, will be offering a field course dealing with the systematics, phenology and ecology of mid-western spring flora. The lectures and laboratories, conducted in the field, will be part of an intensive two-day environmental workshop to be conducted at the Riveredge Nature Sanctuary, Saukville, Wisconsin on May 20 & 21 through the University of Wisconsin.

-- Dr. S. K. "Tom" Yun, Associate Professor of Physics, has been invited to join the Theoretical High Energy Physics Division of the Fermi National Accelerator Laboratory during summer 1978 as a

visiting professor to conduct research in unified gauge theories and new particles. The Fermi Laboratory has the world's newest and most powerful particle accelerator ("atom smasher"). It is called the synchrotron, with a diameter of 6,562 feet and a four-mile circumference, where protons are accelerated to 200-500 billion electron volts of energy. In this facility and others, various new particles called psi, tau and charmed particles were discovered in recent years.

Yun's unified SU(6) gauge theory, which unifies three fundamental forces of elementary particles, attempted to explain these new particles and related phenomena observed in a coherent theoretical framework. His paper was presented at the annual American Physical Society meeting in San Francisco last February and is in press for publication in the Physical Review.

PERSONNEL

INSTRUCTOR OR ASSISTANT PROFESSOR OF NURSING - Community Health or Psychiatric Nursing Specialty. Position available Fall 1978.

This position will be open exclusively to SVSC employees for one week. Persons interested should contact the Personnel Office. SVSC is an equal opportunity employer.
