NORTH CENTRAL VISIT SET FOR OCTOBER 29-31

A five member North Central Association evaluation team will arrive on campus next Monday, October 29 for a three-day visit through Wednesday, October 31 to consider a ten-year renewal of the accreditation granted to SVSC in 1974. During their stay, team members will be moving around campus talking to students, faculty and staff on an informal basis. Dr. Harold Peterson, chairman of the North Central Steering Committee, stressed the casual aspect of these conversations. According to him, team members are interested in seeing the typical day-to-day routine that takes place on campus, and "business as usual" is in order. Faculty and staff members are urged to make every effort to be available next Monday morning through Wednesday noon.

While the evaluation team will be calling some offices and making appointments to visit, they will also be dropping in unannounced at other sites. Dr. Peterson asks that members of the SVSC community be "candid, open and frank" in conversations with team members. "While emphasizing positive aspects and strengths of the college, problems such as space limitations may also be discussed," he says.

Three open meetings are scheduled for all students and faculty members interested in meeting with the evaluation team. On Tuesday, October 30, several team members will be on hand from 3:00 to 5:00 p.m. in Room 317B Wickes Hall (the student lounge) to answer questions and listen to comments from students. They will return to the same room that evening from 5:30 to 7:00 p.m. so that evening students can meet with them.

Faculty and staff members may attend an open meeting with representatives from the team

in the faculty lounge anytime between 3:00 - 5:00 p.m. on Tuesday the 30th.

Chairing the North Central evaluation team is Rudolph W. Schulz, Dean for Advanced Studies at the University of Iowa. Other members include Dr. Louise H. Allen, Vice President for Academic Affairs at the University of Southern Colorado; Dr. Donald W. Robinson, Dean, College of Education, Oklahoma State University; Dr. Martin J.
