DON'T FORGET TO VOTE NOVEMBER 4!

INTERNATIONAL DINNER FEATURES FANTASTIC FOREIGN FOODS

Foreign foods with a flair will be featured for faculty and staff members plus a guest at the annual SVSC international buffet dinner on Saturday, November 15. Hosted by the SVSC Women's Club, this year's event is set for 7:30 p.m. in the lower level of Doan Center.

Faculty and staff members representing more than a dozen countries will be participating, so that the evening promises both a visual and culinary delight. Guests are asked to bring a dish representative of their ethnic backgrounds, or from their travels, or a "house" speciality. Participants should bring an item which serves 15-20 people, and facilities for keeping food hot or cold will be available.

To cover food service expenses, there is a charge of \$2 per person at the door, which includes a beverage selection of coffee, tea, punch and wine.

Everyone has a chance to sample food his or her heart's (or stomach's) content, and there's also opportunity to exchange recipes. Many guests come dressed in costumes from their native countries, adding to the international flavor of the evening.

A special treat this year will be a slide/lecture program by Eugene Siedliski, visiting instructor from the University of Poznan. He will share scene and stories from the Polish countryside.

All SVSC women and their families or guests are welcome to attend the dinner. The planning committee asks that reservations be made by Monday, November 10. Committee members include: Margaret Clark (636-7724); Christie Looney (832-8470); Nancy Mackie

(652-2309); Marsha Means (793-7077); and Mary Louise Rummel (652-9027). Please contact any of them for more information or reservations.

If you've ever wanted to know how to steel, Dr. Terry Ishihara, professor of mechanical engineering, has the answers for you. Actually he won't be giving out helpful hints for burglars when he presents the first fall Science Colloquium program this Friday, November 7. Instead, "How to Steel" is a cross-curriculum approach to the properties and processing of various types of steel found in many products we use daily.

All members of the SVSC community are welcome to attend the meeting set for 1:00 p.m. in 238 Wickes hall. Refreshments will be available and there'll be an opportunity to meet in an informal setting.
