* ANNUAL HOLIDAY LUNCHEON PLANNED

* HAVE A HAPPY HOLIDAY

This winter a unique series of courses is being offered that focuses on the experiences of women. According to Dr. Rosalie Riegler Troester, assistant professor of English, the women's studies courses attempt to do more than expose participants to knowledge not normally stressed in other academic areas.

"The courses seek to give a new perspective by examining the institutions that influence women's experiences," Troester said. "They build toward a vision of a world free from racism and sexism, and from all ideologies and institutions that consciously or unconsciously exploit some for the benefit of others."

The series will provide a broad sampling of course content, political and philosophical approaches, and teaching strategies. Instructors include Dr. Kay Harley, Ms. Brenda Peters, Ms. Mary Wessling, and Troester. In addition, Dr. David Rayfield plans to offer "The Philosophy of Feminism" in the spring. The series includes: "Comp II: Women as Writers" (Eng 114); "Literature By and About Women" (Eng 250); "Women in the Humanities" (Hum 255); "Women in History" (Hist 301); "Women and Work" (Hist 451); and "Introduction to Women's Studies" (Soc 255).

SVSC students are turning out in record numbers for winter registration. Enrollment and schedule adjustment periods continue through December 11.

ADVERSE WEATHER POLICY INFORMATION
(Please keep copy at home)

Adverse weather conditions, especially those associated with Michigan winters, may affect the normal operations of the College. The decision to cancel classes and/or close the main campus will be made by the President's Office in consultation with the Director of Plant Services. If adverse conditions necessitate cancellation or closing, the decision to do so will be made prior to 6:00 a.m. for day classes (those beginning before 4:00 p.m.) and by 2:00 p.m. for evening classes. Information to make weather-related closing decisions is secured through contacts with the Weather Bureau, State Police, Sheriff's Department and other sources, including personal observation.

Because commuting students, faculty and staff come from such a broad geographic area, it is extremely difficult to arrive at a decision that is appropriate to each vicinity. The quad-county area alone includes approximately 2000 square miles, and weather conditions rarely are uniform through this large area. There is no one decision that will satisfy everyone; however, a diligent effort is made to arrive at a reasonable decision that considers health and safety of students as well as their right to receive instruction. Under no circumstances does SVSC ask students, faculty or staff to assume undue risk in travelling to class in inclement weather.

Information about class cancellations/closings will be relayed to radio and TV as soon as the decision has been announced. Messages will be broadcast on TV-5, TV-12, TV-25, WGER, WHNN, WKNX, WKYO, WMPX, WBCM, WSAM, WRCI, WSGW, and WXOX. Station announcers are asked to make the following types of announcements:

1. "Daytime classes have been cancelled at SVSC."
2. "Evening classes have been cancelled at SVSC."
3. "Saginaw Valley State College is closed for both day and evening classes."

No announcement is made when the College is open.

The SVSC Weather/Information Line -- 790-4477 -- has taped messages about the open/closed status of campus. There are four messages. Summarized, they are:

1. Campus open as usual.
2. Campus is closed for daytime classes and operations.
3. Evening classes and activities are open as usual.
4. Campus is closed for evening classes and operations.

For a full statement of the SVSC weather policy, see the SVSC Operations Manual. Instructors who are prevented by weather from reaching their classes when the campus officially is open should see the Manual for steps to be followed. Students who are prevented by weather from reaching their classes when the campus is open should report the nature of their absence to their instructor as soon as possible. Employees who are prevented by weather from reaching campus while the College is open should call their supervisors immediately to report the nature of their absence.

Your patience and cooperation is appreciated in dealing with emergency weather situations.
