'Scientist in Residence' to Share Expertise with SVSC

"It is my feeling that environmental problems will continue to be uncovered and discussed. With this in mind, I would like the opportunity to help our young people to deal with these issues in a rational manner."

Born in London, Ontario, Neely became a U.S. citizen in 1957. He holds a B.S. in agricultural chemistry from the University of Toronto and a Ph.D. in biochemistry from Michigan State University. He completed post-doctoral work at Ohio State University and studied as a Rockefeller Fellow at the University of Birmingham in England.

He was first employed by the Dow Chemical Company in 1957 to perform research in biochemistry. Since then he has served in the government affairs and environmental research sections, and since 1984 has worked with their agricultural products research division. There he completed research leading to the determination of the environmental fate of pesticides.

A prolific author, Neely has published some 100 scientific papers and a book, and is co-author of a second book dealing with environmental problems. His books are titled "Chemicals in the Environment" and "Environmental Exposure from Chemicals."

He taught at Johns Hopkins University before joining Dow, and more recently has been an adjunct faculty member at Michigan State University, teaching environmental science at the graduate level. Neely and his wife Mary reside in Midland. They have one son and two daughters.

... The White House Science Council expects to present specific recommendations in September for implementation of an earlier report requesting increased federal spending for basic research at colleges and universities. Under the plan, the extra money would be given to the six federal agencies that now support most university research -- the Departments of Agriculture, Defense, and Energy, the National Aeronautics and Space Administration, the National Institutes of Health, and the National Science Foundation.

... "At the present time, less than 1/2 of all high school students take either a science or math class beyond the 10th grade. The decline of interest and achievement levels in math and science is a national disgrace."

CAMPUS MINISTRY UPDATE

During the summer a group of persons representing SVSC students, faculty, alumni, staff and area religious bodies convened as a Board of Directors of the SVSC Campus Ministry. Appointed by President Ryder following their nomination by members of an ad hoc study committee on campus ministry, the Board members elected an executive committee that will recommend a set of by-laws to the entire Board at its next meeting on Thursday, August 28.

Dr. Albert Beutler, executive director of development, chairs the Board. Members include: Rev. Gerald C. Abenth from Our Savior Lutheran Church, Saginaw; Mr. Tom Bishop, a student at SVSC; Mrs. Rosalind Blumenau, a Bay City community leader; Rev. William Boli from St. Paul's Episcopal Church, Saginaw; Rev. Jan Clark from the campus ministry office at Delta College; Rev. Frank Cowick from First United Methodist Church, Saginaw; Mrs. Linda Daniels, an SVSC student; Mr. James Dwyer, assistant director of admissions; Ms. Faith Edwards, assistant professor of nursing; Rev. David Evans from United Ministries in Higher Education, East Lansing; Dr. Paul S. Hammer from First Presbyterian Church of Bay City; Dr. Merlyn Mondol, professor of psychology; Ms. Betty O'Neal, an SVSC student; Dr. Thomas Renna, professor of history; Dr. Jack M. Ryder, SVSC president; Mr. Dan Strasz, SVSC student; Mr. Robert Thaler, instructor of sociology; and Bishop Kenneth Untener from the Catholic Diocese of Saginaw.

According to Dr. Beutler, the twin tasks facing the Board this fall include raising sufficient funds to finance an interfaith ministry and hiring a campus minister to continue the work of Trish Novicke, SVSC's former campus minister. Sr. Trish has returned to U. of M. to complete her M.S.W. degree.

BUILDING UPDATE

Item - I.F. 2: The complex is "an anthill of activity" these days, Bob Hanes says. "The move into Brown Hall and the Science Building continues. Several truckloads of new furnishings have arrived already, and we expect two truckloads per day until all 27 have arrived." In addition to movers and contractors, SVSC personnel are at work to complete set-ups for fall semester. Brief meetings three times weekly coordinate moving activity and resolve any associated problems. Hanes said the State Fire Marshall has approved use of the two buildings, and approval for walkthrough traffic is expected soon.

Item - Fine Arts Center: Virtually all steel work is complete, and construction continues to run on schedule.

Item - H. & P. E.: Bob Hanes, Bob Becker and Doug Hansen met August 20 and will meet again August 27. Following that meeting, preliminary drawings will be sent to Lansing for approval.

Item - Misc. Projects: A new sidewalk has been installed from parking lot A to the Administrative Services Building. Arrangements are being completed for roof repair on the '66 and '68 Buildings. In the near future, a short-term parking area will be constructed along Fox Drive near the dormitories.

BIDI SCHEDULES "IDEAS & OPPORTUNITIES" CONFERENCE

Some 40 top level corporate managers and directors are expected to participate in a special conference aimed at the process of evaluating and implementing new opportunities for business expansion or diversification.

The September 9 conference, titled "Ideas and Opportunities," will demonstrate how executives from four corporations evaluate and develop internal business opportunities. The Business and Industrial Development Institute (BIDI) of SVSC is sponsoring the program.

Key personnel from four different corporations will approach the decision-making process of determining the value and impact of a new business idea. Speakers will describe different corporate methods of opportunity assessment and strategy for growth.

This one day conference will be held at the Bavarian Inn Motor Lodge in Frankenmuth, Michigan. Registration begins at 8:00 a.m., with the first presentation set for 8:30. For reservation details, contact Amy Ferguson by phoning ext. 4048.

ENTREPRENEURS CLUB TO MEET

"Nonverbal Behavior and Personal Credibility" will be the topic of discussion at the September 10 meeting, held in lower level Doan Center. Keynote speaker will be Dr. Murlene E. McKinnon, trainer developer and chief executive officer for Macnlow Associates. Reservations are required before September 5, 1986. For further information contact Amy Ferguson by calling ext. 4048.

HIGH FIVE

--SVSC will have a slight change in plans for its 1986 football season opener against Central State University, Ohio. The non-league game will be played at Saginaw Arthur Hill High School, Saturday, September 6, at 1:30 p.m., according to Athletic Director Bob Becker.

"The game was moved because of wind damage to our (Cardinal Stadium) scoreboard," explained Becker, "and a replacement can't be secured until September 22."

Cardinal Head Coach George Ihler will be making his second return trip to Memorial Stadium, where he enjoyed tremendous success with the Lumberjacks' program. SVSC hosted Salem College, West Virginia, in a quarter-final game during the NAIA playoffs in 1984 and came away with a 33-7 victory. The Cards also played home games at Arthur Hill prior to the opening of Cardinal Stadium.

Ihler enters his fourth campaign at SVSC with a 11-1 record, which includes a 16-1-1 mark in GLIAC play and a 5-10 non-conference record.
