SEARCH COMMITTEE REPORTS PROGRESS

If the number of applications received to date is an accurate indicator, SVSU is well on its way toward securing a new president.

Florence "Jo" Saltzman, chairperson of the presidential search committee and of SVSU's Board of Control, reports that "a major influx of credentials has been received."

Saltzman said the search committee met Jan. 4 for a screening exercise conducted by Academic Search Consultation Service personnel. ASCS has been retained to assist with the search.

Through the screening exercise, committee members used actual credentials to learn methods of evaluating applicants. "The process and procedures reviewed by the committee will be used for the balance of the search," Saltzman said.

She said advertisements for the presidential position appeared in the December and January issues of The Chronicle of Higher Education. "An extensive national recruitment for prospective candidates also has been implemented," she said.

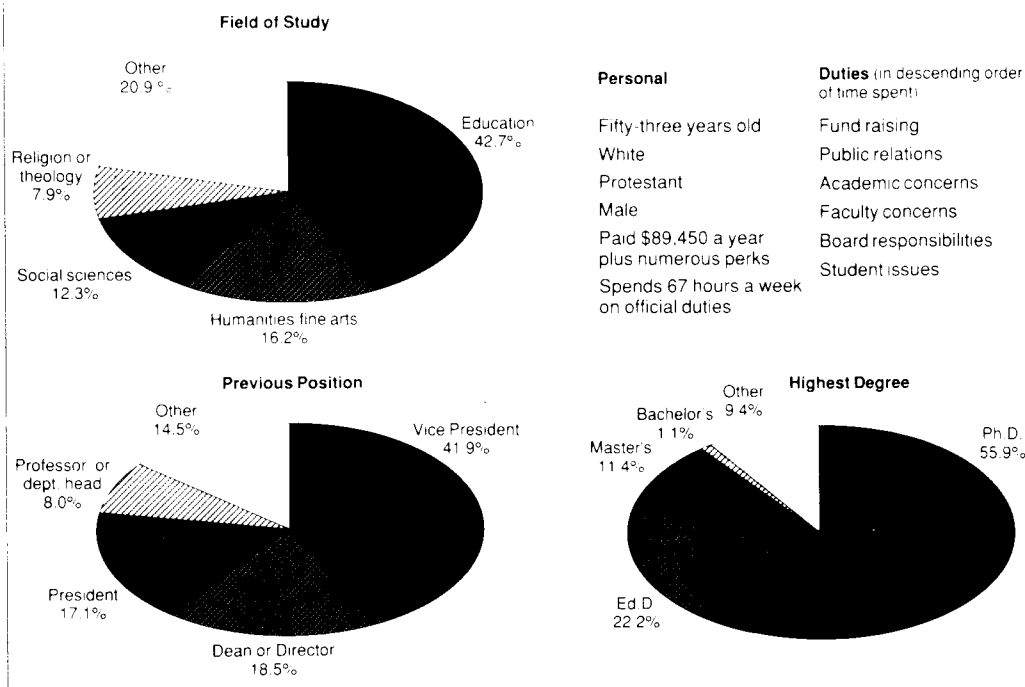

Saltzman said the 10 committee members will continue to review candidate credentials during the next six weeks. The group will meet again late in February to narrow the applicant pool to between 12 and 15 people, whose candidacies will be examined in greater depth.

"In early April, approximately three candidates will be brought to campus for interviews. At that time, everyone will have an opportunity to meet with the finalists and to submit written

appraisals to committee members before they forward final recommendations to the Board of Control for its action," she said.

Nominations of candidates are still welcomed by the committee. "You may recommend persons in your personal or professional acquaintance who would be qualified for the presidency," Saltzman said. Nominations should be forwarded to her, in care of the Presidential Search Committee, Administrative Services Building.

Part of Yun's work for the paper was performed while visiting the Center for Theoretical Physics at MIT during the summer 1988. The paper concerns the effect of the higher dimensional supersymmetric string theory in the low-energy region accessible to the present and the future particle accelerators. Yun also was invited to the 24th International Conference on High Energy Physics in Munich, West Germany, in August 1988. He contributed a paper titled "Fermion Mass Matrices and Mixing Angles in The $SU(8)$ Theory of Multigenerational Grand Unification."

HIGH FIVE

-- Two SVSU athletes qualified for the NAIA **National Indoor Track and Field Championships** in the opening meet of the season. Senior Rich Canole qualified in the 35-pound weight with a heave of 51-5, good for second place at the Eastern Michigan University Invitational on Friday. He also finished seventh in the shot-put with a 45-5.25 throw. Sophomore Jeff Boks finished third in

the 800-meter run with a national qualifying, personal record time of 1:55.41. The Cardinals will compete in the University of Michigan Relays Saturday.

-- The **women's basketball** team lost in overtime for the third time in four games and extended its school-record losing streak to six games with an 82-81 loss at Wayne State on Saturday. Aquinas College halted the Lady Cards' 55-game NAIA District 23 win streak Thursday with a 60-58 overtime decision in Grand Rapids. The Saints were the last district team to beat SVSU in 1983 in Grand Rapids. An era ended last week when SVSU fell from the ranks of the NAIA top 20 for the first time since the NAIA began conducting the poll in 1981-82. The women are 7-8 overall and 1-3 in the GLIAC.

-- The **men's basketball** squad, meanwhile, snapped its six-game losing streak with a 64-60 win at Wayne State on Thursday. The Cards had been held to less than 60 points in the previous six meetings, but scored 64 points, despite the fact its top two scorers were held under double figures for the first time this season. The men are 6-8 overall and 2-2 in the GLIAC.

BALLOTS MUST BE MAILED OR DELIVERED BY FEBRUARY 20, 1989

Faculty, Staff, Student Ballot

I cast my vote for _____
My reasons for this selection are:

(Signature) _____

**Dear Faculty, Staff
and Students**

In conjunction with the commencement ceremony in May 1989, the selection committee for the Franc A. Landee Award For Excellence in Teaching is accepting nominations from the SVSU community (including alumni, faculty, staff, and students) for this prestigious award.

Since 1971, a faculty member has been selected to receive an award for excellence in teaching. Again we ask for your participation in assisting the committee in making a decision by providing information about the candidate you recommend for this honor and recognition. The faculty member selected receives a monetary award, Presidential Medallion, and a plaque.

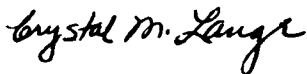

This brochure includes a list of those faculty currently eligible for the award. You need only identify that faculty member and include a reason for your choice. To return the ballot, simply refold the brochure to display our postage-paid return address, secure with tape or staple, and drop it in the mail or return it personally to my office.

I wish to remind you that your response is very important to the whole process of selecting an award winner(s). The committee reviews each ballot returned for the quality of and expressed reasons for your choice. I emphasize that this activity is not a popularity contest based on the quantity of ballots received. Your opinions are most valuable to the selection committee.

The deadline date for receiving your ballot is February 20, 1989.

If possible we would appreciate early replies. On behalf of the committee, we welcome your contribution!

Sincerely,

Crystal M. Lange
