AB&S Dean to Assume Teaching Role

Dr. William K. Barnett, dean of the College of Arts and Behavioral Sciences, has announced his plan to assume a full-time teaching assignment in the sociology department. He will conclude his dean's duties December 31, 1990.

"From Jan. 1 through Aug. 20, 1991, I will be taking accumulated vacation time and sabbatical leave," Barnett said, "spending time at a major university catching up on advances in my discipline and commencing some research projects." He also has tentative plans for a stint as an exchange professor in Asia.

Barnett came to SVSU in 1979 following a national search. A native of Detroit, he holds a bachelor's degree in sociology and a doctorate in anthropology from Michigan State University. He taught at Lincoln University, Jefferson City, MO (where he headed the social sciences department), Lansing Community College, the University of Maryland, the University of Iowa and Illinois State University prior to joining SVSU.

The search for a new dean will begin immediately, according to Vice President for Academic Affairs Robert S.P. Yien. He will appoint a search committee consisting of five faculty from arts and behavioral sciences, one faculty member from another college, a dean, a support staff member and student representation.

"Dr. Barnett has provided a dynamic style of leadership for the College of Arts and Behavioral Sciences during a time of change and rapid growth," Yien said. "We particularly appreciate the strong contributions he made to the revisions of our General Education and Basic Skills programs."

"Bill's intelligence and incredible commitment to his work have obviously been a driving force in the development of his college and the University. We appreciate his willingness to help us through the fall semester, and we look forward to his continued help in a variety of matters in the future," President Eric Gilbertson commented.

Expressionist Paintings form March Display in University Art Gallery

The expressionist paintings of Benita Goldman will be on display in the University Art Gallery from March 12-30.

"Her large, intense canvases describe the people and places of her real and imaginary world," notes Dr. Barron Hirsch, chairman of SVSU's art department. "The figures are either self portraits or images of those close to her. She simplifies the forms, surrounds them with line and uses dissonant colors to excite the feelings of the viewer.

"Her work is sometimes realistic, often fantastic and always wildly flamboyant," he adds.

Historically, Goldman's work develops from the expressionist painters who worked in Germany in the 1920s. These artists went beyond the physical world to paint feelings, psychological fears and hidden illusions.

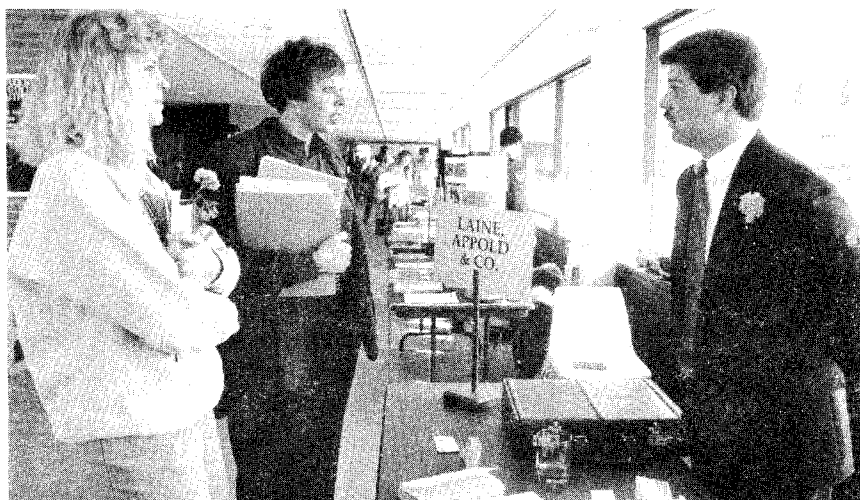

Goldman has exhibited extensively in Michigan. Her credits include the Detroit Focus Gallery, the University of Michigan, the Scarab Club and the Grand Valley Art Center. She was awarded first prize at the Mount Clemens Michigan Annual in 1989. In 1988 she earned best of show honors at Ypsilanti's Ford Gallery. She also is 1989 recipient of a Michigan Council for the Arts Creative Artist Award.

A member of the faculty of Missouri Southern State College, Goldman received her Master of Fine Arts degree from Eastern Michigan University.

Task Force to Conduct Open Session

The 23-member Task Force named by President Gilbertson to examine the University's role will conduct an open meeting. The session is set for 4 p.m. Tuesday, March 13 in the Ryder Center conference room.

Participants will focus on an institutional overview, with data to be presented about various aspects of the University. "We also hope to take the mystery out of the Task Force," said Assistant to the President Richard Payne, who is providing staff support for the committee.

Students Jonelle Decator and Suzette Zofchak obtain career information from a representative of Laine, Appold and Co. during SVSU's 10th annual Career Exploration Day Feb. 21.
