SE&T Colloquium Series-Winter 2014

Speaker	Dr. Hasan Al-Halees Department of Mathematical Sciences
Title	*On a measure of the distance to $\ell^1(2)$ Space*
Abstract	A number $\lambda_0(X)$ associated with a Banach space X will be defined, and we establish some facts about it and then consider applications to Banach-Stone type theorems for isomorphisms on continuous, vector-valued function spaces.
Date	Tuesday, February 18
Time	4:10-5:00pm
Place	Pioneer 240
	Refreshments will be served at 4:00pm.
