

# SAGINAW VALLEY STATE UNIVERSITY

This transfer credit guide provides important information for Delta College students who expect to pursue a bachelor's degree at SVSU. Students who also expect to pursue an associate degree at Delta College should consult directly with a Delta College academic adviser about the associate degree.

This information is subject to change without notice. Individual circumstances, degree paths, and credit totals will vary by student. Students are responsible for maintaining regular contact with an SVSU transfer adviser.

**NOTES:**

<sup>1</sup> This is only a guide; the [SVSU catalog](#) is the official document governing program and degree requirements and transfer policies.

<sup>2</sup> SVSU accepts a maximum of 62 applicable community college transfer credits toward the minimum 124 credit bachelor degree requirement. Students should count credits and limit their choices accordingly.

<sup>3</sup> Bachelor degree candidates must meet SVSU Basic Skills and General Education (BS/GE) requirements. In addition to this academic major guide, refer to and cross reference the supplemental [Basic Skills and General Education guide](#) for appropriate electives.

<sup>4</sup> Two Communication Intensive (CI) courses (3 credits each) are required for the SVSU bachelor degree. See an SVSU transfer adviser.

<sup>5</sup> Michigan Transfer Agreement (MTA) students must complete CI courses at SVSU. Contact an SVSU transfer adviser for additional guidance on this and on other transfer topics.

<sup>6</sup> A pre-requisite course is required for any SVSU course that is listed in bold. Depending upon student course placement, some prerequisite courses may be waived. See an SVSU transfer adviser.

<sup>7</sup> Some majors require a minor. Additional credit options — possibly within GE — may be appropriate. Contact an SVSU transfer adviser for details.

<sup>8</sup> Additional credits, if any, vary by major/minor combination, upper level, transfer-from school, etc. Choice of major/minor combination and of electives can be pertinent to various residency and degree requirements.

## Bachelor of Science in Nursing for For ADN-BSN Concurrent

SVSU major & prerequisite courses are listed alphabetically according to SVSU's course codes.

The ADN-BSN Concurrent program involves taking NURS clinical coursework for the Delta ADN and the SVSU BSN simultaneously, and thus earning the Associate and Bachelor degrees in Nursing within close proximity to each other.

ADN-BSN Concurrent articulation candidates should contact SVSU's RN-BSN coordinator, Deborah K. Gibson at 989.964.4184 or [dkgibson@svsu.edu](mailto:dkgibson@svsu.edu), as soon as they have an interest in exploring the ADN-BSN Concurrent program.

\*Articulation students in the ADN-BSN Concurrent program will earn their validated articulation credits after the Nursing (ADN)-Associate in Applied Science has been earned and RN license in Michigan obtained. Articulation credits may total as many as 32, but in no case shall the combined total of articulation credits and transfer credits exceed 93 credits overall.

\*\*Be certain to reserve at least 31 credits for completion at SVSU to satisfy SVSU's baccalaureate degree residency requirement. For example, the 25 NURS credits noted above, the two upper-level Required Elective Courses for the ADN-BSN Concurrent program (see [svsu.edu/catalog](http://svsu.edu/catalog) and the Program Coordinator), and additional credits of GE or other coursework can help satisfy the minimum 31 credit residency.

### Meet with an SVSU transfer adviser at Delta College.

Visit the University Transfer Center in D-102, call 989-686-9330, email [transfer@svsu.edu](mailto:transfer@svsu.edu), or discover more at [svsu.edu/transfer](http://svsu.edu/transfer).
