

SAGINAW VALLEY STATE UNIVERSITY

This transfer credit guide provides important information for Delta College students who expect to pursue a bachelor's degree at SVSU. Students who also expect to pursue an associate degree at Delta College should consult directly with a Delta College academic adviser about the associate degree.

This information is subject to change without notice. Individual circumstances, degree paths, and credit totals will vary by student. Students are responsible for maintaining regular contact with an SVSU transfer adviser.

NOTES:

¹ This is only a guide; the [SVSU catalog](#) is the official document governing program and degree requirements and transfer policies.

² SVSU accepts a maximum of 62 applicable community college transfer credits toward the minimum 124 credit bachelor degree requirement. Students should count credits and limit their choices accordingly.

³ Bachelor degree candidates must meet SVSU Basic Skills and General Education (BS/GE) requirements. In addition to this academic major guide, refer to and cross reference the supplemental [Basic Skills and General Education guide](#) for appropriate electives.

⁴ Two Communication Intensive (CI) courses (3 credits each) are required for the SVSU bachelor degree. See an SVSU transfer adviser.

⁵ Michigan Transfer Agreement (MTA) students must complete CI courses at SVSU. Contact an SVSU transfer adviser for additional guidance on this and on other transfer topics.

⁶ A pre-requisite course is required for any SVSU course that is listed in bold. Depending upon student course placement, some prerequisite courses may be waived. See an SVSU transfer adviser.

⁷ Some majors require a minor. Additional credit options — possibly within GE — may be appropriate. Contact an SVSU transfer adviser for details.

⁸ Additional credits, if any, vary by major/minor combination, upper level, transfer-from school, etc. Choice of major/minor combination and of electives can be pertinent to various residency and degree requirements.

Bachelor of Science in Nursing for the Licensed RN-to-BSN

SVSU major & prerequisite courses are listed alphabetically according to SVSU's course codes.

DELTA COLLEGE COURSES			SAGINAW VALLEY STATE UNIVERSITY COURSES		
Course No.	Course Name	Cr	Course No.	Course Name	Cr
Delta ADN	Complete the Delta Associate Degree in Nursing/ADN applied science program requirements.				
NCLEX	Take the NCLEX & Earn/Maintain Valid RN (Registered Nurse) Licensure in Michigan.				
MTH 209W	Statistics [Stats Elective]	4	MATH 132A⁶	Statistical Methods: General Statistics (GE3)	4
Subtotal toward 62 CC Maximum²:		4

NURS 421	Professional Integration II for RNs	2			
NURS 431	Nursing Care Designer III: RN/Concurrent	3			
NURS 479	Nurse Provider Clinical II for RNs	3			

The RN-BSN program is for students who already have (or who will have) a valid Michigan RN licensure at the associate degree level by the time they begin taking NURS coursework from SVSU to advance their education to a Bachelor of Science in Nursing/BSN.

*Articulation students in the RN-BSN program will earn their validated articulation credits via the successful completion of NURS 301, which is strongly recommended to be taken during the first semester with SVSU. Articulation credits may total as many as 32, but in no case shall the combined total of articulation credits and transfer credits exceed 93 credits overall.

RN-BSN articulation candidates should contact SVSU's RN-BSN coordinator, Deborah K. Gibson at 989.964.4184 or dkgibson@svsu.edu, as soon as they have an interest in exploring the RN-BSN program.

**Be certain to reserve at least 31 credits for completion at SVSU to satisfy SVSU's baccalaureate degree residency requirement. For example, the 24 NURS credits noted above, the 4 upper-level credits of 2 Required Elective Courses for the RN-BSN program (see svsu.edu/catalog and the Program Coordinator), and at least 3 credits of GE or other coursework can help satisfy the minimum 31 credit residency.

Meet with an SVSU transfer adviser at Delta College.
