

PRINTKEY INSTRUCTIONS

Download PrintKey

1. Double click the Application Explorer icon on your desktop.
2. Double click the All icon
3. Double click the PrintKey2000 icon
4. The install will take less than 1 minute. It will install files into the c:\PrintKey2000 directory. When completed, click File - Close.
5. Start PrintKey by clicking on PrintKey2000 under Start-Programs-PrintKey2000.
6. Once installed, you will see a printkey button  on your taskbar. To print directly to the printer, right click on the icon, and check 'Direct Print (no dialog)'. If you do not do this, you will get a dialog box, from which you can print or save the printscreen.

Once PrintKey is installed press the PrintScr key (next to F12 key), to send a printscreen to the printer.

If you experience problems with the install, contact the Support Center, x4225.
