

Engineer Jokes

Engineers - Take One

Two engineering students were walking across campus when one said, "Where did you get such a great bike?" The second engineer replied, "Well, I was walking along yesterday minding my own business when a beautiful woman rode up on this bike. She threw the bike to the ground, took off all her clothes and said, "Take what you want." The second engineer nodded approvingly, "Good choice. The clothes probably wouldn't have fit."

Engineers - Take Two

To the optimist, the glass is half full.

To the pessimist, the glass is half empty.

To the engineer, the glass is twice as big as it needs to be.

Engineers - Take Three

A pastor, a doctor and an engineer were waiting one morning for a particularly slow group of golfers. The engineer fumed, "What's with these guys? We must have been waiting 15 minutes." The doctor chimed in, "I don't know, but I've never seen such ineptitude!" The pastor said, "Hey, here comes the greenskeeper. Let's have a word with him. Hi, George. Say, what's with that group ahead of us? Do they have to be so slow?" The greenskeeper replied, "Oh, yes. That's a group of blind firefighters. They lost their sight saving our clubhouse from a fire last year, so we always let them play for free anytime." The group was silent for a moment. The pastor said, "That's so sad. I think I will say a special prayer for them tonight." The doctor said, "Good idea. And I'm going to contact my ophthalmologist buddy and see if there's anything he can do for them." The engineer said, "Why can't these guys play at night?"

Engineers - Take Four

Q. What is the difference between Mechanical Engineers and Civil Engineers?

A. Mechanical Engineers build weapons, Civil Engineers build targets.

Engineers - Take five

Three engineering students were gathered together discussing the possible designers of the human body. One said, "God is a mechanical engineer. Just look at the skeleton and how brilliantly all the joints work." Another said, "No, no, God is an electrical engineer. Think of the nervous system with its many thousands of electrical connections." The last said, "No way. God has to be a civil engineer. Who else would run a toxic waste pipeline through a recreational facility?"

Engineers - Take Six

Normal people believe that if it ain't broke, don't fix it. Engineers believe that if it ain't broke, it doesn't have enough features yet.

Scott Adams, The Dilbert Principle Engineers - Take Seven

An engineer was crossing a road one day when a frog called out to him and said, "If you kiss me, I'll turn into a beautiful princess". He bent over, picked up the frog and put it in his pocket. The frog spoke up again and said, "If you kiss me and turn me back into a beautiful princess, I will stay with you for one week." The engineer took the frog out of his pocket, smiled at it and returned it to his pocket. The frog then cried out, "If you kiss me and turn me back into a princess, I'll stay with you and do anything you want." Again the engineer took the frog out, smiled at it and put it back into his pocket. Finally, the frog croaked, "What's with you? I've told you I'm a beautiful princess, that I'll stay with you for a week and do anything you want. Why won't you kiss me?" The engineer took the frog out and said, "Look, I'm an engineer. I don't have time for a girlfriend, but a talking frog, now that's cool."
