Locating full text articles at Zahnow Library

Find Text*

is a “link resolver,” a useful tool that helps you locate either the full text of a periodical article in a resource the Library subscribes to OR provides you with an option to obtain that article from another library.

This is how it works.

When you are in a database and cannot locate the full text of an article, you should see the Find Text button or “Check LinkSource for article availability”:

After you click on this button, the full text will open automatically if we subscribe to the journal:

If we do not have access to the full text, a window similar to the one below should open and provide you with the option to request the article through the Library’s interloan service, ILLiad.

**DO NOT PAY FOR YOUR RESOURCES!**

Always contact a Research Center Librarian for assistance if you cannot locate the full text in the Library’s databases or if you encounter other difficulties in obtaining your resources.

Melvin J. Zahnow Library, Saginaw Valley State University
7400 Bay Road
University Center, MI 48710
1-989-964-4242

*Find Text is the Library’s brand name for EBSCO’s link resolver software, LinkSource.
