From Dr. Lange:

My mother passed away this past week and I was not in the frame of mind to try to put together the examination that was scheduled for you on March 12th nor the sample questions that were meant to be available to you during this past week. Therefore, I have decided to give you a take home examination on March 12th. You will need to take this examination and return it to me at the beginning of class on Wednesday, March 14th.

Students who do not pick up the examination during class will need to take a traditional, timed, make-up examination at the end of the semester as is outlined in the syllabus.
