**Michigan Test for Teacher Certification
Annual Summary of State Results: Initial & Cumulative
Program Year: August 1, 2022–July 31, 2025**

These reports present Michigan Test for Teacher Certification (MTTC) passing rates for test-takers who tested for the first time in the program year listed. The report includes first-time test-takers in the program year who were deemed eligible by the institution verification process for subject area reports. The cumulative pass rates include passing attempts by these candidates at any subsequent administration. The notes below are an integral part of the reports.

Interpretative Notes and Cautions

Results reported for only a small number of test-takers may not be indicative of how large numbers of test-takers typically perform. Extreme caution should be used in interpreting data for small numbers (<10) of test-takers.

Candidates whose data are presented in this document may not reflect the same performance as that of test-takers who will take these tests in the future.

Key for Data Tables:

N = Number of test-takers who took an MTTC for the first time, any time during the program year.

N Pass, or (% Pass) = Number, or (Percentage), of test-takers who passed an MTTC.

Initial = First-time test-takers who pass an MTTC on the first attempt, any time during the program year.

Cumulative = Total first-time test-takers who pass an MTTC at any time during the program year, including those who eventually pass after one or more attempts, provided the first attempt occurred during the program year of the report. The cumulative pass percentage is used for comparison purposes among higher education institutions.

- - = Pass percentages are not reported for institutions or test fields currently having fewer than ten (10) test-takers recorded during a reporting interval.
