

SE&T Colloquium Series-Winter 2017

| | |
|----------|---|
| Speaker | Dr. Giselle Tamayo-Castillo Dow Visiting Scholar Professor of Chemistry, University of Costa Rica Host: Dr. Gary Lange |
| Title | <i>Bioprospecting in Costa Rica and what it entails</i> |
| Abstract | Costa Rica possesses only 4 percent of the world's biodiversity, yet by square mile, is one of the most diverse countries on the planet. In this talk, Dr. Giselle Tamayo-Castillo will focus on the bioprospecting research at the unit she led scientifically for over 20 years at the Costa Rica National Institute of Biodiversity. |
| Date | Tuesday, April 18 |
| Time | 4:10-5:00pm |
| Place | Pioneer 240 |
| | Refreshments will be served at 4:00pm. |
