SAGINAW VALLEY STATE UNIVERSITY MANAGEMENT'S DISCUSSION AND ANALYSIS

The following provides a discussion and analysis of the financial performance of Saginaw Valley State University (SVSU or University). This discussion, the financial statements, and related footnotes have been prepared by and are the responsibility of management.

USING THE ANNUAL REPORT

The annual report consists of a series of financial statements, which have been prepared in accordance with the Governmental Accounting Standards Board (GASB). These financial statements focus on the financial condition and results of the financial position of the University and its component unit, Saginaw Valley State University Foundation (Foundation), and the cash flows of the University.

The fundamental objective of the University's financial statements is to provide an overview of the University's economic condition. The various statements and their primary purpose are discussed below.

- Statement of Net Position. This statement presents information on all University assets, deferred outflows, liabilities and deferred inflows. It is prepared on an accrual basis - revenues and expenses are recognized when earned or incurred, respectively.
- Statement of Revenues, Expenses, and Change in Net Position. This statement presents a summary of revenues and expenses classified as either operating or nonoperating. The University's operating loss results from the classification of State appropriations and Pell grants as nonoperating revenue. Also, this statement reflects a change in the University's net position based upon revenues in excess of expenses.
- Statement of Cash Flows. This statement classifies cash inflows and outflows into the following classifications: operating activities, noncapital financing activities, capital financing activities, and investing activities. This information is useful in assessing the University's ability to meet maturing financial obligations.

REPORTING ENTITY

The University is considered a component unit of the State of Michigan because the Governor of the State of Michigan appoints its Board of Control. Accordingly, the University is included in the State's comprehensive annual financial report as a discretely presented component unit.

The financial statements report information about total University operations. In accordance with GASB standards, the Foundation is included in the financial statements of the University as a discretely presented component unit.

FINANCIAL HIGHLIGHTS

The University experienced sound financial performance as indicated by the following:

- Net position increased by 3.6% from June 30, 2012 to June 30, 2013; 3.7% from June 30, 2011 to June 30, 2012; and 7.4% from June 30, 2010 to June 30, 2011.

**SAGINAW VALLEY STATE UNIVERSITY
MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED**

- Operating revenues increased in fiscal 2013, 2012 and 2011 as a result of increased tuition rates and housing occupancy and in 2012 and 2011 due to increased enrollment.

Demand/economic factors underlying this level of performance were as follows:

- Applications decreased by 7.8% from Fall 2011 to Fall 2012 but had increased 7.1% from Fall 2010 to Fall 2011 and 2.0% from Fall 2009 to Fall 2010.
- Headcount enrollment increased from 10,656 in Fall 2010 to 10,790 in Fall 2011 and then decreased to 10,552 in Fall 2012. Credit hours increased from 258,524 in 2010 to 264,578 in 2011, and 269,810 in 2012, and then decreased to 265,404 in 2013.

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED**

The University's largest asset is its investment in capital assets, including land, land improvements and infrastructure, buildings, equipment, library acquisitions, construction in progress, and works of fine art. Capital assets represent 76% of the University's total assets. Notes and bonds payable totaled \$127.1 million at June 30, 2013. This represents 79% of the University's total liabilities.

A graphic illustration of the University's net position at June 30, 2013 by classification and restriction is as follows:

The University's net position consists of the net investment in capital assets, restricted net position, and unrestricted net position. Restricted net position represents assets whose use is restricted by a party independent of the University. This includes restrictions related to gifts, grants, and the Federal Nursing Faculty Loan program.

Unrestricted net position represents net position of the University that has not been restricted by parties independent of the University. This includes funds that the Board of Control and management have designated for specific purposes as well as amounts that have been contractually committed for goods and services that have not been received as of June 30, 2013. The following summarizes the internal designations of the University unrestricted net position:

CAPITAL ASSETS/LONG-TERM DEBT

Capital Plan and Related Debt Financing

The University engaged consultants to update the master plan which was finalized in fiscal 2013. The University also engaged consulting engineers to review the condition of the University's roofs, roads, and parking lots. The University then prepared a detailed deferred maintenance analysis of all infrastructure incorporating the results of the external reviews.

The University Board of Control has reviewed a long-term capital development and related financing plan. Fiscal 2013 expenditures for capital projects approximated \$11.4 million. These capital projects were funded by a combination of bonds issued by the Michigan State Building Authority (SBA), University general revenue bonds, capital gifts, and other available University resources.

University Rating

The University issued General Revenue & Refunding Bonds, Series 2013A, in the amount of \$19,250,000 in June 2013. Proceeds from the bonds were used to refund prior General Revenue bonds, to reduce debt service, and to finance, together with other resources, renovation and expansion of the Ryder Center. Moody's Investors Services, Inc. and Standard & Poor's Ratings Services rated the bonds "A1" and "A", respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED**

FACTORS OR CONDITIONS IMPACTING FUTURE PERIODS

Financial and budget planning is directly related to and supportive of the University's mission and operational needs. The ability to plan effectively is influenced by an understanding of the following factors, which impact the University's finances:

- State Economy
- Inflationary Pressures
- Program Growth and Development
- New Initiatives
- Technology
- Productivity Improvements

Since 2001, SVSU as well as its sister institutions in Michigan have experienced the impact of a poor economy and deficit-ridden State budget. State Appropriations increased by approximately 9% in fiscal 2013 following a decrease of 15% from fiscal 2011 to 2012. The State implemented performance funding for a portion of the State appropriations allocation beginning in fiscal 2013. The University received \$1,926,000 related to the performance funding criteria and \$169,200 in tuition restraint funding.

SAGINAW VALLEY STATE UNIVERSITY FOUNDATION

The Foundation is an independent corporation formed for the purpose of receiving funds for the sole benefit of the University. The University provided approximately \$959,000 of administrative support to the Foundation during fiscal 2013. This support is reflected as institutional support in the University's financial statements and as gift revenue and corresponding administrative expenses in the Foundation's financial statements. The Foundation transferred endowment distributions and unrestricted and restricted gifts to the University totaling \$2,766,999 in fiscal 2013.

As of June 30, 2013, the market values of three of the Foundation's 288 endowments were below the gift value compared to twelve endowments below gift value at June 30, 2012. The Foundation's spending policy is to distribute four percent annually, with distributions made quarterly. Distributions are based on the average market value of the endowment for the preceding twelve calendar quarters, with the calculation made September 30 of each year. The September 30 per unit market value is utilized for distributions for the four quarterly distributions of the next fiscal year. However, the policy does not allow distribution if the individual endowment value is below historical gift value at each quarter end. As a result, some of the endowments did not distribute for one or more of the quarters during fiscal 2013.

The net assets of the Foundation were as follows as of June 30:

	2013	2012	2011
Unrestricted	\$ 7,424,664	\$ 6,502,500	\$ 6,462,772
Temporarily Restricted	7,764,551	3,333,228	5,008,512
Permanently Restricted	44,925,257	42,734,285	39,511,756
	<u>\$ 60,114,472</u>	<u>\$ 52,570,013</u>	<u>\$ 50,983,040</u>

Report of Independent Auditors

Board of Control
Saginaw Valley State University

Report on the Financial Statements

We have audited the accompanying financial statements of Saginaw Valley State University (University), a component unit of the State of Michigan, and Saginaw Valley State University Foundation (Foundation), a discretely presented component unit of the University, as of and for the years ended June 30, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the University's financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Saginaw Valley State University and its discretely presented component unit, Saginaw Valley State University Foundation as of June 30, 2013 and 2012, and the respective changes in financial position and Saginaw Valley State University cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note A to the financial statements, the University adopted GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, as of July 1, 2011. In accordance with the standards, the University has modified the presentation of the statement of net position and has reported deferred outflows of resources at June 30, 2013 and 2012 in accordance with the standards. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages i through vii be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audits of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the University's financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 28, 2013 on our consideration of Saginaw Valley State University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

SAGINAW VALLEY STATE UNIVERSITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements have been prepared to incorporate all fund groups utilized internally by Saginaw Valley State University (University) and include Saginaw Valley State University Foundation (Foundation), a discretely presented component unit of the University. The University's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). The Foundation's financial information has been prepared on the accrual basis following accounting policies established by the Financial Accounting Standards Board (FASB).

Reporting Entity

The University's financial statements are presented discretely in the State of Michigan Comprehensive Annual Financial Report. Public universities with governing boards appointed by the Governor are considered component units of the State. Transactions with the State relate primarily to appropriations for operations and capital projects and grants from various state agencies.

The Foundation, a component unit of the University, is a not-for-profit corporation, which provides support for the objectives and purposes of the University.

Basis of Accounting

The accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting whereby all revenues are recorded when earned and all expenses are recorded when they have been incurred.

The Foundation has applied the recognition principles of all applicable FASB codification sections. Certain disclosures conform more to the GASB presentation than what may be required by FASB.

Revenue Recognition

Operating revenues of the University consist of tuition and fees, grants and contracts, sales and services, and auxiliary enterprises revenue. These revenues represent revenue earned from exchange transactions and are reported net of discounts. The University's nonoperating revenues include State appropriations, gifts, investment income, capital appropriations and capital grants and gifts. When both restricted and unrestricted resources are available for expenses, the University applies the restricted and unrestricted resources at its discretion.

Funds are appropriated to the University for operations by the State of Michigan covering the State's fiscal year, October 1 through September 30. The sums appropriated are for the University's fiscal year ending June 30 and are generally paid in eleven monthly installments from October through August.

(continued)

Revenue Recognition - Continued

The Foundation recognizes a gift when the donor makes a pledge that is, in substance, unconditional. The Foundation uses the allowance method to determine uncollectible unconditional pledges receivable. The allowance is based on prior years' experience and management's analysis of specific promises.

Accounts Receivable

Accounts receivable are stated at the outstanding principal balance adjusted for any charge-offs and the allowance for doubtful accounts.

The University determines the allowance for doubtful accounts based on an evaluation of accounts receivable, past and recent experience, current economic conditions, and other pertinent factors. The allowance for doubtful accounts is increased by the provision charged to expense and reduced by charge-offs. The University considers receivables past due when they have not been paid within their contractual terms. The University charges off receivables when the receivable is deemed uncollectible.

Investments

Investments are reported at fair value. Investment income includes realized and unrealized gains and losses on investments, interest, and dividends.

Inventories

Inventories are stated at lower of average cost or market.

Institutional Physical Properties

Physical properties are stated at cost or, when donated, at fair market value at date of gift. The University uses a \$5,000 threshold for capitalizing assets. Depreciation is computed using the straight-line method over the useful life of the property as follows:

<u>Classification</u>	<u>Life</u>
Land improvements and infrastructure	15 years
Buildings	20 - 50 years
Equipment	4 - 15 years
Library acquisitions	7 years

When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts. The cost of maintenance and repairs are expensed as incurred; significant renewals and improvements are capitalized.

Reclassifications

Certain fiscal year 2012 balances have been reclassified to conform to the current year presentation. Specifically, the University has presented the Foundation in separate statements rather than being included in the statements with the University. This presentation more fully follows the FASB presentation for the Foundation.

Change in Accounting Principles

Effective with the fiscal year ended June 30, 2013, the University adopted GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. These statements introduce and define deferred outflows and deferred inflows as a consumption of net assets by the University that is applicable to a future reporting period, and an acquisition of net assets by the University that is applicable to a future reporting period, respectively. The standards also incorporate deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. In accordance with the standards, the University has modified the presentation of the Statements of Net Position and has reported deferred outflows of resources from the refunding of debt.

The following summarizes the restatements due to adoption of these new standards:

Debt Issuance Costs – GASB Statement No. 65 requires that certain debt issuance costs be recognized as an expense in the period incurred. Accordingly the University has restated net position, inventories and prepaid expenses, and interest on capital asset-related debt to reflect this change.

Change in Accounting Principles – Continued

Refunding of Debt – GASB Statement No. 65 requires that the net effect of advance refunding be reported as a deferred outflow of resources. Previously, this amount was reported as a reduction of the general revenue bonds liability. Accordingly, \$1,356,291 has been shown as a deferred outflow at June 30, 2013 and \$1,001,116 at June 30, 2012.

NOTE B - CASH AND CASH EQUIVALENTS AND INVESTMENTS-UNIVERSITY

The University utilizes the “pooled cash” method of accounting for substantially all of its cash and cash equivalents in order to maximize investment return. The investment policy for pooled cash, approved by the Board of Control, divides cash for purposes of investment into three asset groups: short-term pool, intermediate-term pool, and long-term pool. The University did not have funds in the long-term pool during the fiscal year or as of June 30, 2013 or 2012.

Credit Risk

The University’s investment policy requires that investments shall be in marketable securities of the following types and with the noted credit ratings:

Short-term Pool

1. All investments must be convertible into cash at anytime without any significant loss of principal.
2. Any instrument issued by, guaranteed by, or insured by the U.S. Government, agencies, or other full faith instruments of investment grade are permitted.
3. Commercial paper issued by domestic corporations rated both “P-1” and “A-1” by Moody's Investors Service, Inc. and by Standard & Poor’s, respectively, may be included.
4. Also permitted are certificates of deposit, bankers acceptances, or other such irrevocable primary obligations from a list of approved banks.
5. Commingled funds and short-term cash reserve mutual funds may be used if they are in compliance with the above guidelines.

Intermediate-term Pool

1. Fixed-income investments may include U.S. and Non-U.S. issues of Government and Agency obligations, marketable corporate bonds, mortgage or asset-backed bonds, and preferred stocks with sinking funds as deemed prudent by the investment managers.
2. Fixed-income investments shall be made primarily in those rated “BAA” (investment grade) or better by Moody’s and BBB (investment grade) or better by Standard & Poor’s with emphasis toward “A” or better issues. However, up to 20% of the fixed income investments can be made in below investment grade debt (high yield).

SAGINAW VALLEY STATE UNIVERSITY
NOTES TO FINANCIAL STATEMENTS
(continued)

NOTE B – CASH AND CASH EQUIVALENTS AND INVESTMENTS-UNIVERSITY
(continued)

Credit Risk – Continued

Intermediate-term Pool - Continued

3. Fixed income investments may include U.S. and Non-U.S. issues, including high yield, global fixed income, and emerging market debt instruments.
4. Diversification must be maintained and, with the exception of securities guaranteed by the U.S. Government, the securities of a single issuer should not exceed 10% of the market value of the manager's portfolio responsibility.
5. No equity exposure is permitted within the intermediate term pool.
6. The Investment Committee may also implement a laddered bond portfolio that is diversified by holdings and maturities that emphasizes higher quality. The intent of this structure would be to alleviate duration risk as the bonds would be held to maturity and then reinvested. If the Investment Committee implements this structure, the duration guideline above would not apply.

Interest Rate Risk

As a means of managing its exposure to fair value losses arising from increasing interest rates, the University's investment policy limits the average weighted maturity for a short-term portfolio to between one day and one year and the average weighted maturity for the intermediate-term portfolio to between one year and five years.

Concentration of Credit Risk

Cash and cash equivalents consist primarily of funds invested with either a bank short-term investment pool or Treasury Money Market Funds. The yield was 0.01% for 2013 and was 0.03% for 2012. The Investment Policy requires that for the intermediate-term pool, diversification must be maintained and, with the exception of securities guaranteed by the U.S. Government, the securities of a single issuer should not exceed 10% of the market value of the manager's portfolio responsibility. No more than 10% of the fixed income investments, at market, shall be invested in securities of any one issuer, except Government and Agency obligations.

Investments in the intermediate-term pool have the following quality of investments:

- PIMCO Total Return Fd Instl – 64.0% AAA, 9.0% AA, 13.0% A, 8.0% BBB, 3.0% BB, 2.0% B, 1.0% below investment grade;
- RidgeWorth SEIX Floating Rate High Income – 0.7% A, 8.8% BBB, 34.9% BB, 44.0% B, 3.5% below investment grade, 8.1% no rating;
- Vanguard Short-term Bond Index Signal – 74.1% AAA, 6.0% AA, 11.5% A, 8.4% BBB;
- Loomis Sayles Global Bond Instl – 36.0% AAA, 24.0% AA, 19.2% A, 18.2% BBB, 1.7% BB, 0.8% B, 0.1% no rating;
- JP Morgan Core Bond Select – 69.7% AAA, 4.8% AA, 12.1% A, 7.5% BBB, 1.1% BB, 0.6% B, 0.7% below investment grade, 3.5% no rating.

NOTE B - CASH AND CASH EQUIVALENTS AND INVESTMENTS-UNIVERSITY
(continued)

Foreign Currency Risk

The University did not have holdings in foreign investments as of June 30, 2013 or 2012.

Custodial Credit Risk

Deposits: Custodial credit risk is present if the deposits are not covered by depository insurance and are 1) uncollateralized; 2) collateralized with securities held by the pledging financial institution; or 3) collateralized with securities held by the pledging financial institution's trust department or agent in the University's name. Cash and cash equivalents as reflected in the accounts of the investment institutions at June 30, 2013 were \$51,692,355. Of that balance, \$51,180,715 was uninsured and uncollateralized. Cash and cash equivalents as reflected in the accounts of the investment institutions at June 30, 2012 were \$34,416,496. Of that balance, \$16,722,145 was uninsured and uncollateralized.

Investments: The University has engaged Comerica Bank to serve as custodian for the short-term and intermediate-term pools other than the accounts with Bank of America and Chemical Bank. The custodian maintains physical possession of securities owned by the University, collects dividend and interest payments, redeems maturing securities, and affects receipt and delivery following purchases and sales. The custodian also performs regular accounting of all assets owned, purchased, or sold.

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the University will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments in external investment pools and in open-end mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form. The University has no custodial credit risk in its investments as of June 30, 2013 or 2012.

NOTE C - INVESTMENTS-FOUNDATION

The primary objective of the Foundation's investment policy, approved by the Foundation Board, is to increase the purchasing power of the Foundation's assets after inflation while maintaining a distribution policy as established by the Foundation Board. The secondary objective is to consistently earn a high, long-term, total rate of return without undue risk exposure or volatility.

Credit Risk

The Foundation's investment policy requires that fixed income investments emphasize high-quality and that on average, the portfolio should have a rating of "A" or better as defined by a majority of the major credit rating agencies.

NOTE C - INVESTMENTS-FOUNDATION

Interest Rate Risk

As a means of managing its exposure to fair value losses arising from increasing interest rates, the Foundation's investment policy limits the maximum maturity for any single security to 40 years; mortgage bonds will be on an average maturity basis with the weighted average maturity not to exceed ten years.

The following table summarizes the components of the Foundation's investments at June 30, 2013 and 2012:

NOTE C - INVESTMENTS-FOUNDATION
(continued)

Concentration of Credit Risk

The Foundation recognizes that, over the long term, equity investments provide the best opportunity to achieve the objectives and goals of the Endowment Fund. However, a degree of diversification in other forms of investments is prudent. To accomplish the endowment investment objectives, investment managers are authorized to utilize portfolios of equity securities, fixed-income securities, alternative investments, and short-term investments (cash and cash equivalents). The total portfolio shall be maintained within the following ranges:

	<u>Minimum</u>	<u>Maximum</u>
Domestic Equities	35%	55%
International Equities	10%	20%
Fixed Income	20%	40%
Alternative Investments	N/A	20%
Cash/Short-term Investments	N/A	10%

The investments shall be reviewed quarterly to ensure the endowment assets are within these ranges.

To ensure diversification in the investment equity portfolio, the Foundation's investment policy limits investment in an individual common stock to 10% of a given investment manager's portfolio based on market value. Additionally, within each separately managed account, economic sector allocations must be less than twice that of the same economic sector as defined by the market benchmark. For the fixed income portfolio, with the exception of securities guaranteed by the U.S. Government, the securities of single issuers should not exceed 5% of the market value of the investment manager's portfolio.

At June 30, 2013, the Foundation's investments that exceeded 5% of the investment portfolio included the PIMCO Total Return Fd Instl (\$6,355,427), PIMCO All Assets Fd Instl (\$3,341,812), Vanguard 500 Index Fund (\$4,915,933), DFA US Large Cap Value Portfolio (\$3,383,086), Vanguard Mid Cap Index Fund (\$2,779,666), Harbor International Fund (\$4,566,587), William Blair Funds International Growth Fund Class I (\$4,232,866), T Rowe Price Instl US Structured Research (\$4,290,929), and Harbor Capital Appreciation Fund (\$3,073,381).

Foreign Currency Risk

The Foundation investment policy states that foreign denominated investments should not exceed 20% of the portfolio. The Foundation's holdings in foreign investments were made in mutual funds as noted above.

NOTE C - INVESTMENTS-FOUNDATION
(continued)

Custodial Credit Risk

The Foundation has engaged Comerica Bank to serve as custodian of the endowment investments. The custodian maintains physical possession of securities owned by the Foundation, collects dividend and interest payments, redeems maturing securities, and affects receipt and delivery following purchases and sales. The custodian also performs regular accounting of all assets owned, purchased or sold. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Foundation will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments in external investment pools and in open-end mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

NOTE D - ACCOUNTS RECEIVABLE AND NOTES RECEIVABLE

The University's accounts receivable relate to several transactions including State appropriations, student tuition and fee billings, and auxiliary enterprise sales, such as food service and residence halls. In addition, receivables arise from grant awards, financial aid, and billings related to capital assets. The details of accounts receivable, excluding State appropriations, as of June 30, 2013 and 2012 are listed below in the table:

	June 30,

NOTE D - ACCOUNTS RECEIVABLE AND NOTES RECEIVABLE
(continued)

Based on Senate Bill 905, PA 273 of 1998, State appropriations are recorded principally on the accrual basis, when earned. As a result, the University recorded State appropriations receivable of \$4,664,856 at June 30, 2013 and \$4,283,912 at June 30, 2012. Charter schools appropriations receivable were recorded at June 30, 2013 of \$12,604,244 and at June 30, 2012 of \$12,189,432. The University has recorded a corresponding amount due to the charter schools. The University received direct State appropriations and other funds in the amount of \$70,304,671 to be forwarded to seventeen charter schools for fiscal 2013 and \$68,870,534 for fiscal 2012.

The detail of the Foundation's contributions and accounts receivable for June 30, 2013 and 2012 are listed below in the table:

NOTE G - NOTES AND BONDS PAYABLE

The University issued General Revenue and Refunding Bonds, Series 2013A, in the amount of \$19,250,000, in June 2013. A portion of the proceeds from the bonds were used to establish an irrevocable escrow fund that will refund a portion of the remaining Series 2004 Bonds and the Series 2004B Bonds. The refunded bonds will be called for redemption on July 1, 2014. The bonds were refunded in order to reduce the University's debt service. The refunding resulted in a deferred amount on refunding of \$434,768. The deferred amount on refunding is being amortized over the remaining life of the old bonds and is reported as a deferred outflow. The difference in the cash flow requirements of the portion of the Series 2013A General Revenue and Refunding Bonds used to advance refund the old bonds and the refunded old bonds was a gain on refunding of \$1,181,187 (\$14,379,594 debt service of the old bonds versus \$13,198,407 debt service of the new bonds). The present value of the gain at 2.76% is \$889,281. The remaining proceeds from the Series 2013A bonds will be used, together with other available resources, to renovate and expand the Ryder Center. The bonds were issued at a premium of \$2,618,113, bear interest at rates ranging from 3.125% - 5.00% and mature at various dates through July 1, 2034.

The University issued General Revenue Bonds, Series 2010A, in the amount of \$29,590,000, in May 2010. Proceeds from the bonds were used to refund all of the remaining Series 1998 and 2001A Bonds and to fund various capital projects. The refunded bonds were called for redemption on their respective first call date, July 1, 2010, for both refunded bond series. The bonds were refunded in order to reduce the University's debt service. The Series 2010A bonds were issued at a premium of \$1,471,071.

The University issued General Revenue Bonds, Series 2008B, in the amount of \$12,555,000, in August 2008. Proceeds from the bonds were used to finance construction of new student housing.

The University issued General Revenue Refunding Bonds, Series 2008, in the amount of \$26,845,000 in March 2008 to refund all of the Series 2001B General Revenue Bonds and to pay the related 2001B Bonds swap termination fee of \$1,486,000.

The University issued General Revenue Bonds, Series 2007, in the amount of \$24,435,000 in March 2007 to fund various capital projects.

NOTE G - NOTES AND BONDS PAYABLE
(continued)

The University issued General Revenue Bonds, Series 2005, in the amount of \$28,010,000 in April 2005 to fund various capital projects and to advance refund and defease a portion of the outstanding General Revenue Bonds, Series 1998, 1999, and 2001A. The University deposited noncallable, U.S. Government securities in an irrevocable trust with an escrow agent to advance refund and defease the bonds. The refunded bonds were called for redemption on their respective first call date (done on July 1, 2008 for the 1998 bonds; on July 1, 2009 for the 1999 bonds, and July 1, 2010 for the 2001A bonds). The bonds were refunded in order to reduce the University's debt service.

The refunding resulted in a deferred amount on refunding of \$1,472,228. The deferred amount on refunding is being amortized over the remaining life of the old bonds and is reported as a deferred outflow.

The University issued General Revenue Bonds, Series 2004B, in the amount of \$3,165,000 in October 2004 to fund various capital projects.

The University issued General Revenue Bonds, Series 2004A, in the amount of \$11,825,000 in July 2004 to fund various capital projects and to refund and defease \$3,385,000 of the General Revenue Bonds, Series 1993. The refunded bonds were called for redemption on August 17, 2004. The bonds were refunded to reduce the University's debt service.

Notes and bonds payable outstanding as of June 30 consist of the following:

	<u>\$ 127,120,000</u>	<u>\$ 71,370,239</u>	<u>\$ 198,490,239</u>

The net deferred amount on refunding from the Series 2013A and Series 2005 bonds is reported on the Statements of Net Position as a deferred outflow. The deferred amount was \$1,356,291 at June 30, 2013 and \$1,001,116 at June 30, 2012.

The University has a \$260,000 letter of credit for the Wolverine Power Marketing Cooperative electricity contract at a per annum fee of 1.5 percent. In addition, amounts drawn against the letter of credit include interest at the bank prime rate plus one half percent per annum. No amounts were drawn against the letter of credit at June 30, 2013 or 2012. The letter of credit is secured by general revenues.

On July 15, 2009 the University entered into a \$10 million line of credit. Effective February 2013, if the University were to take an advance on the line it would select the interest rate to be either prime minus one-half percent (however, the rate payable shall never be less than 3.25% per annum) or the London Interbank Offer Rate as most recently published by Thomson Reuters plus 225 basis points. The line's revolving loan agreement requires the University and Foundation to maintain aggregate deposits with the lender of not less than \$2,500,000. No amounts have been drawn against this line of credit.

NOTE J - COMMITMENTS AND CONTINGENCIES

The amount of funding required to complete construction in progress will come from the General Revenue Bond proceeds, institutional resources, and gifts. The costs to complete significant construction in progress at June 30, 2013 approximate \$23,440,000.

In the normal course of its activities, the University is party to various legal actions. After taking into consideration legal counsel's evaluation of pending actions, the University is of the opinion that the outcome thereof will not have a material effect on the financial condition of the University.

The University has entered into lease agreements with the State Building Authority (SBA) and the State of Michigan during prior fiscal years for Science East and West Buildings, Zahnnow Library, West Complex, the Regional Education Center, Pioneer Hall renovations, and the Health and Human Services building. The projects were financed with SBA Revenue Bonds, State appropriations and University resources. The SBA bond issues are secured by a pledge of rentals to be received from the State of Michigan pursuant to the lease agreements between the SBA, the State of Michigan, and the University. During the lease terms, the SBA will hold title to each of the facilities; the State of Michigan will make all annual lease payments to the SBA from general fund appropriations; and the University will pay all operating and maintenance costs of the facilities. At the expiration of each lease, the SBA has agreed to sell the facilities to the University for the sum of one dollar each. The cost and accumulated depreciation for these facilities is reflected in the accompanying Statements of Net Position.

NOTE K - SUPPORT ORGANIZATIONS

The Foundation is an independent corporation formed for the purpose of receiving funds for the sole benefit of the University. The Internal Revenue Service has ruled that the Foundation is qualified under Section 501(c)(3) of the Internal Revenue Code (Code) and is, therefore, not subject to tax under present federal income tax laws, and also is not a private foundation within the meaning of Section 509(a)(3) of the Code. Foundation Board of Director membership includes the following individuals: members of the Saginaw Valley State University Board of Control as appointed by the Board of Control, certain officers of the University as set forth in the Foundation bylaws, and other community representatives elected by the Foundation Board.

The University provided approximately \$959,000 of administrative support to the Foundation during fiscal 2013 and \$920,000 of support during fiscal 2012. These amounts were recorded as gifts and expenses in the Statements of Activities and Change in Net Assets. The Foundation transferred \$2,766,999 to the University during fiscal 2013 and \$2,340,691 during fiscal 2012. These amounts include endowment distributions and restricted and unrestricted gifts. Under the spending policy established by the Board, 4.0% of the moving average market value of endowment investments for the twelve quarters through September prior to the beginning of the fiscal year has been authorized for expenditure. During 2009, the State of Michigan adopted the Uniform Prudent Management of Institutional Funds Act (UPMIFA). According to UPMIFA, the Foundation may appropriate for spending as much of the endowment as the institution deems prudent for the uses, benefits, purposes, and duration for which the particular endowment fund was established, subject to the evaluation of several specific factors including general economic conditions and the fund's purpose. Although UPMIFA allows spending of the original gift, the Foundation's board policy does not allow for distribution if the individual endowment fund value is below historical gift value at the end of a quarter.

SAGINAW VALLEY STATE UNIVERSITY
NOTES TO FINANCIAL STATEMENTS
(continued)

NOTE K - SUPPORT ORGANIZATIONS
(continued)

As of June 30, 2013 the market values of three of the Foundation's 288 endowments were below the gift value compared to twelve endowments below their gift value at June 30, 2012. Therefore, some of the endowments did not distribute for one or more of the quarters during fiscal 2013 and 2012.

The Foundation classifies the original value of any gifts donated to a permanent endowment as permanently restricted net assets and any subsequent investment returns, realized or unrealized, as temporarily restricted or unrestricted net assets.

In accordance with GASB standards, the Foundation is included in the financial statements of the University as a discretely presented component unit.

The Saginaw Valley Research and Development Corporation (SVRDC), a not-for-profit taxable entity, exists to foster economic development. The operations and net assets of SVRDC are not significant and are not included in these financial statements as a component unit of the University.

NOTE L - RETIREMENT PLAN

The University has a defined contribution retirement program for all qualified employees. Qualified employees include nearly all full-time employees. University contributions are made to the Teachers Insurance and Annuity Association-College Retirement Equities Fund (TIAA-CREF) and are based on a percentage of qualified employee payroll. Employees maintain individual annuity contracts with TIAA-CREF and are fully vested. University contributions for the years ended June 30, 2013 and 2012 approximated \$5,950,000 and \$5,756,000, respectively, with annual covered payroll for participants of the plan approximating \$49,581,000 in 2013 and \$47,965,000 in 2012. The University has no liability for past service or post-employment benefit costs.

NOTE M - LIABILITY AND PROPERTY INSURANCE

The University participates with ten other Michigan public universities in the Michigan Universities Self-Insurance Corporation (MUSIC). This corporation's purpose is to provide insurance coverage for errors and omissions liability, comprehensive general liability, and property loss. The University has a retention amount from which it would pay losses related to errors and omissions, comprehensive general liability claims, and property claims. The second layer of coverage for losses exceeding the retention level is the responsibility of MUSIC. MUSIC has purchased excess insurance coverage for comprehensive general liability and property loss claims that exceed its level of responsibility. The payments made to MUSIC and premiums to excess carriers reflect the claims experience of each university.

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2013

- Note 1:** As defined in OMB Circular A-133, Student Financial Assistance programs and Research and Development programs are considered to be clusters of programs and, accordingly, have been classified as one program for testing purposes. Student Financial Assistance Cluster, SVSU's Strengthening Institutions Project, and Supporting the Implementation of Intel Math have been defined as major programs. Also, the entire Student Financial Assistance Cluster was excluded when determining the dollar threshold for major program determination.
- Note 2:** Under the William D. Ford Federal Direct Loan Program, students and parents borrow funds directly from the federal government; the University is responsible for verifying student eligibility, electronically transmitting the loan records to the federal processor, and distributing the loan funds directly to the student account or parent borrower. For the year ended June 30, 2013, Direct Student Loans totaled \$57,213,238 (\$21,450,741 subsidized, \$30,992,475 unsubsidized, \$4,683,061 PLUS, and \$86,961 direct graduate).
- Note 3:** The Pell grant expenditures are the actual amounts incurred through June 30, 2013. The University will process amendments subsequent to year end to finalize the 2012-2013 award year. Amounts reported do not include an administrative cost allowance of \$19,315.
- Note 4:** The University began participation in the Nurse Faculty Loan Program (NFLP) and the ARRA Nurse Faculty Loan Program (ARRA-NFLP) in fiscal year 2011. The University received \$27,820 from the ARRA-NFLP (CFDA Number 93.408) and \$36,823 from the NFLP (CFDA Number 93.264). The federal cash received along with the required University match were placed in separate loan funds. During fiscal year 2011 the University awarded \$21,500 from the ARRA-NFLP funds. As noted on the Schedule of Expenditures of Federal Awards, there was \$17,862 in loans outstanding as of June 30, 2013. No loans were made from the NFLP funds. As a result, during fiscal year 2013 the University closed the NFLP and returned federal cash of \$36,823 in principal and \$102 in related interest income, as calculated by the Department of Health and Human Services.

The University utilized the services of Campus Partners to administer the repayment of the ARRA-NFLP loans and perform certain due diligence procedures. The most recent available report on Campus Partners compliance and internal controls was received and reviewed. No significant items of noncompliance or control weaknesses were noted.

Notes to Schedule of Expenditures of Federal Awards (continued)

Note 5: The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Saginaw Valley State University under programs of the federal government for the year ended June 30, 2013. Expenditures reported on the Schedule of Expenditures of Federal Awards are reported on the same basis of accounting as the financial statements, although the basis for determining when federal awards are expended is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. In addition, expenditures reported on the Schedule of Expenditures of Federal Awards are recognized following the cost principles contained in OMB Circular A-21, *Cost Principles for Educational Institutions*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Therefore, some amounts presented in this Schedule of Expenditures of Federal Awards may differ from amounts presented in, or used in the preparation of, the financial statements.

Because the Schedule of Expenditures of Federal Awards presents only a selected portion of the operations of Saginaw Valley State University, it is not intended to, and does not, present the financial position, changes in net position, or cash flows, if applicable, of Saginaw Valley State University. Pass-through entity identifying numbers are presented where available.

Independent Auditors' Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards*

Board of Control
Saginaw Valley State University

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Saginaw Valley State University (University) and its discretely presented component unit, Saginaw Valley State University Foundation (Foundation), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Saginaw Valley State University's financial statements, and have issued our report thereon dated August 28, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Saginaw Valley State University's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Saginaw Valley State University's internal control. Accordingly, we do not express an opinion on the effectiveness of Saginaw Valley State University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the University's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of our testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance For Each Major Program;
Report on Internal Control Over Compliance; and Report on the Schedule
of Expenditures of Federal Awards Required by OMB Circular A-133

Board of Control
Saginaw Valley State University

Report on Compliance for Each Major Federal Program

We have audited Saginaw Valley State University's (University) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2013. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

Opinion on Each Major Federal Program

In our opinion, the University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of Saginaw Valley State University as of and for the year ended June 30, 2013 and have issued our report thereon dated August 28, 2013, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.
