"From the very beginning of my study at MBA program, I have been closely involved with faculty research. The faculty door always has been open for me. The professors have been always willing to share their knowledge, expertise and experience. Having the opportunity to work with enthusiastic professors on different research projects, I discovered the excitement of scientific curiosity. I am deeply indebted to the faculty at the MBA program for inspiring and encouraging me to pursue a career in academia."

Ying-Chung (Jimmy) Yang, Taipei, Taiwan '94 MBA

"Acted as a global village with an excellent location, SVSU offers the best study environment for international students. The MBA program not only strengthens general business knowledge but specifies in assorted perspectives covering economics, corporate finance, business strategies, strategic thinking, organizational behavior, and even political policies that affect business. SVSU's MBA underscores the importance of building the entrepreneurial spirit while applying the power of strategic mechanism to assist global business practices. This way of teaching had become a great complement to my own business which I regard as the most reward. It granted me the capability to identify and analyze today's complex domestic and global issues that invariably impact an organization."

Gonzalo Murlanda, Cali, Colombia, current MEM student

"I came to SVSU because it was affordable and I wanted to experience the American culture. In return, I got an education that has proven to be excellent in the mechanical engineering field and I got to experience not only the American culture, but many others because of the vast international community at SVSU. SVSU was my window into the world. This is why SVSU was my choice to pursue a masters degree as well."
