

A MESSAGE FROM THE DIRECTOR

Saginaw Valley State University remains committed to excellence in academic and professional programs that prepare highly qualified graduates. This annual report marks the achievements of our faculty and staff who further their work by winning grants and contracts from diverse sponsors. Saginaw Valley State University's sponsored and academic programs help build partnerships with institutions, agencies, and corporations—receiving over seven million in external grants, contracts, and sponsored research funding in fiscal year 2008. We commend the members of the University community for their accomplishments.

Janet Rentsch, Director

Sponsored and Academic Programs Support

REPORTS ON GRANTS, CONTRACTS AND SPONSORED RESEARCH ACTIVITIES

This annual report summarizes grants, contracts, and sponsored research activity at Saginaw Valley State University for the 2008 fiscal year. During this fiscal period—July 1, 2007 through June 30, 2008—a total of \$7,291,878 was awarded for research and other sponsored projects. The following table illustrates the total sponsored support at Saginaw Valley State University over the past ten years.

In addition to support for research-related activities, grants and contracts support education, student services, and program development projects. A total of 78 proposals were submitted to external sponsors during fiscal year 2008; 49 of those proposals (63%) have been funded, with ten proposals still pending a decision.

External sponsors represent a cross section of government agencies, business and industry representatives, community organizations, and educational institutions. The following table shows that federal sources provided 84% of the total funding for grants, contracts, and sponsored research activities during fiscal year 2008; state agencies, foundations, corporations, and other organizations provided 16%.

UNIVERSITY GOALS SUPPORTED BY GRANTS

Two underlying principles guide Sponsored and Academic Programs Support: The office aims to increase faculty participation in sponsored programs and seeks to develop their capacity in the area of grant proposal development while supporting them in the submission of proposals. Assistance is offered by providing access to information about potential funding sources, aiding in the preparation and development of budgets, editing proposals prior to submission to external sponsors, publishing campus announcements and updates, hosting workshops for faculty and students, and assisting in the preparation of required reports.

Staff in the office of Sponsored and Academic Programs Support facilitates the external proposal development and submission process and administers selected awards after they are received. The staff in this office works with principal investigators/directors to monitor compliance procedures once grants are awarded. Careful management of selected institutional grants is vital, as the acquisition of future external funding is dependent on the University's ability to prove they are good stewards of the funding that has been granted.

Academic Improvement

The University will continuously develop and improve academic programs which are effectively delivered and periodically assessed, thereby motivating and enabling students to participate professionally and intellectually in an increasingly diverse, global, and technological society.

Program Qualitative Distinctiveness

The University will develop nationally recognized programs and areas of excellence that promote quality throughout the University and enhance the value of an SVSU degree.

Enrollment Management

The University will continue to be an institution of choice and opportunity for students who seek and obtain a college degree.

Technology

The University will continue to develop, maintain, and enhance its technological resources to facilitate excellence and innovation in teaching and learning and to improve institutional efficiency and effectiveness. The University will provide leadership for the greater community on technology issues.

Campus Culture

The University will promote and continuously enhance a culture and environment that fosters and supports the personal and intellectual growth of its students, faculty, and staff.

Community Relations

The University will continue to improve and expand its contributions to the greater community's quality of life and will forge stronger connections by becoming the premier cultural and intellectual center and resource for schools, businesses, and governments.

INTERNAL GRANTS FOR FACULTY DEVELOPMENT

Four internal grant opportunities, described below, are available to SVSU faculty to support their professional development and research. Fiscal year 2008 recipients of internal funds and release time are listed in this report under the college in which they reside.

SVSU Faculty Research and Professional Development Awards

Each year the University Unit Committees recommend funding for faculty proposals requesting release time for research and/or professional development with consultation between the president of the Faculty Association and the vice president for Academic Affairs. The charge of the committees is to encourage and promote scholarship, advanced studies, and research among the faculty of Saginaw Valley State University. Committee responsibilities include the evaluation of applications and recommendation for the allocation of these funds. In fiscal year 2008, the University Unit Committees supported faculty requests totaling \$51,663 and 73 hours of release time.

Sabbatical Leave

Eleven sabbaticals were granted by the Board of Control in fiscal year 2008. SVSU professors are eligible to apply for sabbatical leave upon six consecutive years of service to the University.

SVSU Faculty Supplemental Funds

Each academic dean and vice president for Academic Affairs determines additional University support for professional development conference participation. Forty-eight faculty requests were supported with \$26,884 in fiscal year 2008 for presentations and conference participation.

SVSU Foundation Resource Grants

SVSU Foundation Resource Grants enhance scholarship, further the academic and cultural missions of the University, and/or have significant impact on the University community for projects and programs which directly benefit and involve SVSU students. The Resource Grant Program was established in 1998 by the SVSU Foundation Board of Directors, and available funds are generated by distributions from the SVSU Foundation Resource Fund Endowment. The evaluation committee includes appointed community members from the Saginaw Valley State University Foundation Board. For fiscal year 2008, sixteen grants were awarded totaling \$76,758.
