

How to prepare for your upcoming SVSU Mobile Research Lab visit

1. Check your calendar and email communication to ensure the date, time, grade, number of students, and topic have been finalized.
2. Designate one person in your school to be the leader during the day of the visit to collect paperwork, keep time, coordinate groups on and off the Mobile Lab, communicate with Mobile Lab team, and answer questions.
3. Ensure a large, flat, safe space has been secured for the Mobile Lab to park for the entire time of the visit. There should be a clear entry and exit point.
4. For K-6th grade visits, distribute the consent form to parents to read and sign with their student at least a few days before the visit to ensure paperwork is completed on the day of the visit to give to Dr. Diegel.
5. For K-6th grade visits, have students who are coming aboard the Mobile Lab complete the Pre-Test (emailed from Dr. Diegel) at least one day before the visit.
6. Review the basic concepts of the topic(s) with your students a day before the visit to get them engaged and excited.
7. Make sure students wash their hands before coming aboard the Mobile Lab.

8. Following completion of the Mobile Lab experience, have students complete the Post-Test (Dr. Diegel will bring on day of the visit for K-6th grade visits).
9. Once the final group of students have exited the Mobile Lab for the day, the Mobile Lab team will clean up and exit the site.
10. For K-6th grade visits, a link to a survey will be emailed to complete by the teacher(s) who came aboard the Mobile Lab.
