Public School Academy

By the Scholar, for the Scholar

Juwan Palmer

“Hello, my name is Juwan Palmer, and I am a third-year student, here at Saginaw Valley State University. I graduated from Chandler Park Academy in 2018. I chose SVSU because of the Public School Academy Program. My oldest sister also attends the university. The PSA program, to me, was very helpful. It helped pay for majority of my tuition since my freshmen year.

In five years, I see myself graduating from Saginaw Valley State University with my bachelor's degree in Rehabilitation Medicine and graduating from Wayne State University with my doctoral degree in Physical Therapy.

My best experience with the PSA program is working as a mentor. Working for the PSA program has been an amazing opportunity. I've been able to mentor young students and guide them through their first year of college.

Some advice I recommend to the incoming freshmen is to stay on your game! Do not slack off because it is much harder to catch up than to fall behind.
